

A project initiated by the Rotary Club of Lismore in 1987 and adopted by Rotary Clubs across Australia

### **Bowelscan 2018 Program Information**

Rotary Bowelscan and your local Rotary Club distributes kits to almost all of Victoria and the border regions and we are busy gearing up for another successful month of awareness about Bowel Cancer in the community.

**Bowelscan test kits should be available at your local pharmacy throughout May for \$15.**

Did you know that:

- Bowel Cancer kills more Australians each year than breast or prostate cancer.
- The good news is that early detection increases bowel cancer survival.
